

LAKSHANA G S

Computer Science and Engineering Student

Tamil Nadu, India | +91 9360220881 | lakshanaganesh08@gmail.com | lakshana.24cs@kct.ac.in | **LinkedIn:** linkedin.com/in/lakshana-g-s-533987328

CAREER OBJECTIVE

Computer Science and Engineering student with a CGPA of 9.2, passionate about Artificial Intelligence and Software Development. Skilled in Python, C, Streamlit, and AI technologies, with a strong interest in building innovative technology solutions.

EDUCATION

Bachelor of Engineering – Computer Science and Engineering

CGPA: 9.2/10

Kumaraguru College of Technology (2024 – 2028)

Higher Secondary (Class XII)

Percentage: 97%

St. Antony's Matric Higher Secondary School

SSLC (Class X)

Percentage: 98.8%

St. Antony's Matric Higher Secondary School

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java (Basic)

Frameworks & Libraries: Streamlit, Pandas, Plotly

Database: MySQL (Basic)

Tools: VS Code, Adobe Photoshop, Adobe Illustrator, Microsoft Office

Core Concepts: Data Structures & Algorithms, OOP, AI Integration, Basic Machine Learning

PROJECTS

Construction Rework & Root-Cause Intelligence Hub

- Built an AI-powered construction analytics dashboard to analyze rework incidents, cost losses, and root causes.
- Designed interactive visualizations — bar, pie, Pareto charts, heatmaps, and trend analysis — for decision support.
- Integrated Google Gemini API to deliver AI-generated project insights and answer user queries in real time.

Technologies: Python, Streamlit, Pandas, Plotly, Gemini API

Smart Traffic Prediction & Route Alert System

- Developed an ML-based system to predict traffic congestion using historical traffic datasets.
- Alerts users to accidents and road construction within a specified radius and suggests alternate routes.
- Improved travel efficiency through intelligent, real-time route recommendations.

Technologies: Python, Machine Learning, Dataset Analysis

Smart Food Delivery Web Application

- Developed a full-stack food delivery web application using HTML, CSS, PHP, and MySQL for efficient online food ordering.
- Integrated MySQL database for user authentication, menu management, and order processing with secure database connectivity.
- Implemented an AI-powered chatbot to assist users with menu recommendations, order queries, and navigation.

Technologies: HTML, CSS, PHP, MySQL, AI Chatbot

CERTIFICATIONS

- AWS Data Engineering Virtual Internship — EduSkills & AICTE
- AI-ML Virtual Internship — EduSkills, AICTE & Google for Developers
- Infosys Springboard — Database Management System - Part 1 & Part 2
- Coursera — Foundations of 3D Modeling in Blender
- Coursera — Beginning Custom Processes with Raspberry Pi

ACHIEVEMENTS

- Mahatma Gandhi Academic Excellence Award for outstanding academic performance for two consecutive years.
- Active participant in technical events and student clubs.

ADDITIONAL INFORMATION

Strengths: Problem Solving, Analytical Thinking, Logical Reasoning, Teamwork, Leadership, Communication, Quick Learning, Time Management, Adaptability

Areas of Interest: Artificial Intelligence, Software Development, Machine Learning, Data Visualization, Web Development

Languages: English, Tamil
